These inventions provide for golf bags, in particular stand type golf bags used in game play are arranged with modular components. These components can be easily switch by a golfer whereby the component may be replace with one having an alternative function or style. In addition, components subject to damage may be quickly and easily replaced with new components. Golf bags (1) are configured with special fasteners (13, 17) which allow parts to be removably affixed to the bag for the switchable components. Standard materials and fasteners might by used elsewhere on the bag. Golf bag components which are arranged to be changeable include at least: the stand element (11), a back pad, shoulder straps (9) and shoulder moulds (6), and pockets.
